

Shorashim Display: Legos

By Chaim and Chaya Baila Wolf Brooklyn Teacher Center of Torah Umesorah

Grade Level:

Lower Elementary (1-3)

Educational Goals/Objectives:

Students will learn new shorashim.

Students will be able to build and break apart Hebrew words.

Description:

Teach and review shorashim with a creative interactive display. The legos are color-coded to indicate rosh mila, shoresh, and sof mila. When you teach a new shoresh, write it on a yellow lego and place on the board. Use different rosh/sof mila legos to build words with the shoresh. Afterwards, when you find a word in Chumash with the shoresh, use the legos to decode the word.

Material Preparation:

1. Print and laminate the legos.
2. Use a dry erase marker to write on shorashim.
3. Optional: Place magnet or Velcro on the back of the pieces, depending on the type of board you have.
