

Dot Letter RACE

-  This game is played like Rubik's cube race.
-  Each child playing gets an empty grid and cards to put in each box.
-  Teacher hangs up or puts one of the 1-8 cards in the middle of the table. Children have to arrange their 1-8 cards to match the master card. The one who finishes first is the winner.
-  It is great for concentration, visual perception, speed and of course great fun.
